# HUNTING SMALL GAME

The Browning hunter enjoys shooting in all its forms, whether that's a day on the pheasants with friends, an afternoon in a pigeon hide, or the solitary draw of the marsh and moor, where you may shoot duck, woodcock, or grouse or golden plover, taking no more than the land can provide, this season and next. For anyone passionate about hunting small game, the tools of the sport are dog and gun. That's why the Browning hunter has a keen eye for products that have proven their worth in the field, whether that's the gun that sets the standard, which reassures, like the B725 over-and-under or the Maxus 2, or clothing or shooting accessories such as a smart cartridge bag and slip. The Browning hunter enjoys the countryside for what it is, for what it can produce, and what greater pleasure than joining friends for a fine meal where you can share the fruits of your hunt?

## THE RIGHT GUN FOR THE LEFT-HANDED SHOOTER

Browning now brings you true left-hand models with shotguns that open by pushing the top lever to the left >> SEE PAGE 4

BECAUSE  
EVERY SHOOTER  
HAS THE RIGHT  
TO TOTAL  
COMFORT

OUR GUNS  
ARE ALSO  
DESIGNED FOR  
LEFT HANDERS

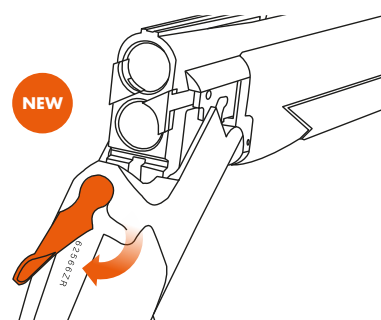

# NO-ONE IS LEFT OUT: TRUE LEFT HAND

Products for left-handed shooters don't always meet demand in the gunmaking world. Browning, as an iconic brand, is determined to make a difference. Many of our Buckmark guns, such as the BAR, Maral, X-Bolt and T-Bolt are now designed for left handers. Some of our over-and-unders are also available in left-hand versions. Our B525 and B725 for left-handed shooters are stocked for shouldering on the left so that you can mount your gun as comfortably as a right-handed shooter.

In other guns, the top lever is usually designed for right-handers. Browning offers true left-hand models.

The name says it all. The gun is opened by pushing the top lever to the left rather than the right, allowing left-handed shooters to operate the gun instinctively and improve their performance, all for the same price.

# B725

THE LEGENDARY STRENGTH NOW COMBINES  
WITH REVOLUTIONARY DESIGN AND FEATURES

## 'LEGENDARY RELIABILITY' AND 'INNOVATION' ARE B725 WATCHWORDS

The Browning B725 is an aesthetic and technical revolution in over-and-under shotguns. Based on the legendary B25, it is innovative whilst retaining the many existing design features of the B525, which — we are proud to repeat — makes it the most outstanding over-and-under shotgun on the market.

### B725 HUNTER G5 12M INV DS

#### 1 INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and Material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

#### 2 HIGH-PERFORMANCE MECHANICAL TRIGGER SYSTEM

This firing system is shorter, faster and lighter giving more control over your shooting. Browning's innovative mechanical firing system provides great ease of use for hunters and shooters, guaranteeing that a second shot can be fired whatever the circumstance.

#### 3 LOW ACTION FRAME

The low action frame provides the following benefits when shooting. It enables faster aiming and therefore more instinctive shooting. Thanks to the frame's inline recoil providing a more comfortable shooting position, it reduces muzzle flip and makes for good manoeuvrability and effectiveness when shooting.

**ACTION FRAME GUARANTEED FOR TEN YEARS.**

#### 4 BACK-BORED™ VECTOR PRO™ BARREL

The Back-bored™ Vector Pro™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

#### 5 INVECTOR DS™ CHOKES

Adjustable Invector DS™ chokes have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'the perfect spread' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun for the distances at which you shoot and the game you are hunting (Full Choke = 35m, ¾ Choke = 30m, ½ Choke = 25m, ¼ Choke = 20m, Cyl = 15 m).

### **B725 HUNTER UK PREMIUM II 12M & 20M INV DS**

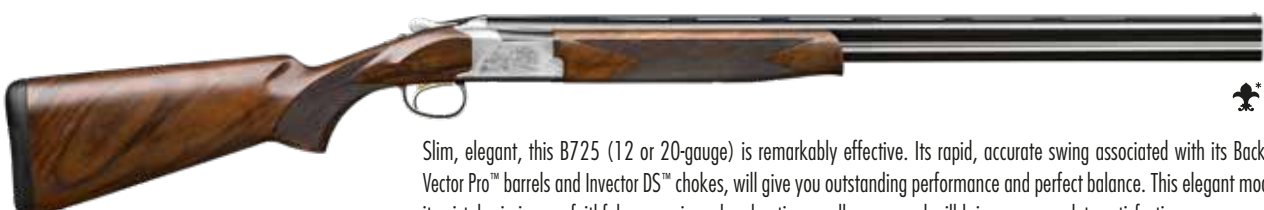

The B725 UK Premium II range reaches new aesthetic heights with beautifully honed contours. The stock is enhanced by a rounded pistol grip, and the gun is ornamented with animal engravings that depict partridge and pheasant on the 12-gauge and partridge and woodcock on the 20-gauge.

### **B725 HUNTER LIGHT PREMIUM 12M INV DS**

Its action frame in lightweight aluminium reduces the weight of the gun by over 300 g for an even easier swing. Shouldering, tracking and hitting your target become one fluid movement: Its Back-Bored™ barrels, five Invector DS™ chokes, and 12mm recoil pad are a credit to modern technological progress, while the exquisitely designed nickel-plated aluminium receiver and grade 3 walnut woodwork make it an over-and-under shotgun of great distinction.

### **B725 HUNTER PREMIUM 20M INV DS**

Slim, elegant, this B725 (12 or 20-gauge) is remarkably effective. Its rapid, accurate swing associated with its Back-bored™ Vector Pro™ barrels and Invector DS™ chokes, will give you outstanding performance and perfect balance. This elegant model with its pistol grip is your faithful companion when hunting small game, and will bring you complete satisfaction.

# B725

## B725 GAME 12M

The action frame of the B725 Game is made of steel complete with charming engravings. The nitride finish affords a grey look that is especially pleasing on the eye and an excellent barrier against corrosion. The B725 Game includes grade 3 Turkish walnut and is fitted with a new stock that further enhances the ergonomic characteristics of a B725 that has nothing more to prove.

MAKE YOUR ENJOYMENT  
THE NAME OF THE GAME

## B725 HUNTER UK BLACK GOLD II 12M INV DS

This B725 is available in 12-gauge version, and now comes with a rounded pistol grip stock. Game scenes are shown on the elegant black action frame, with partridge strongly emphasized by the gilding - alongside pheasants (12-gauge).

### FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made of indestructible forged steel.
- Wide flat bolt which guarantees locking surfaces which are three times greater than other systems.
- A unique hinge pin, wide diameter, guarantees optimal resistance to wear. A guarantee of long-life.
- Impact wheel ejectors: straighter, more powerful ejection than retaining ejectors.
- Chromed barrels and chambers, don't rust, easy maintenance.

# ACTION FRAME GUARANTEED FOR 10 YEARS

WHEN HUNTING  
BECOMES AN ART

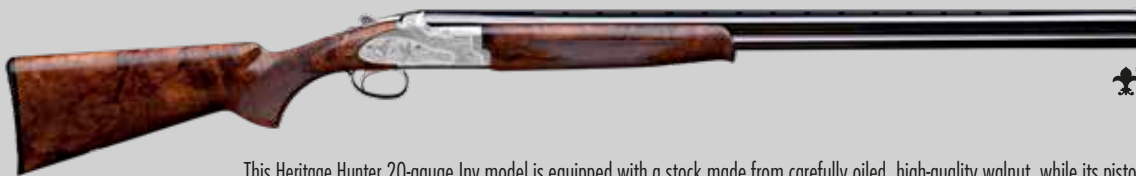

# HERITAGE

## HERITAGE HUNTER II 12M INV+

Available in 12-gauge, the Heritage Hunter is a model of perfect balance, delicacy and ease of handling. It has a rounded pistol grip made from superb oil-finished walnut. Partridge and woodcock are brought out to magnificent effect on the sleek, low action frame. Partridge and woodcock are magnificently represented and enhanced on its low, thoroughbred action frame.

## HERITAGE HUNTER 20M INV

This Heritage Hunter 20-gauge Inv model is equipped with a stock made from carefully oiled, high-quality walnut, while its pistol grip and tulip fore-end pay full tribute to its inspiration, the B25.

# B525

## SHOOTER AND GUN AS ONE

The B525 shotguns from Browning have built a reputation for excellence over the years. They provide the quality you demand when hunting small game: effective, elegant, reliable. Do your dreams justice.

### B525 GAME LAMINATED 12M

The modern style of this B525 Game Laminated isn't its only standout feature: the consistent density of its laminated wood makes it extremely rigid and keeps it perfectly stable when taking the shot.

1

#### INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and Material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

#### FLAWLESS MECHANICS FOR OUTSTANDING RELIABILITY

- Action frame made from indestructible forged steel.
  - Extra-wide flat bolt and hinge pin.
- Impact wheel ejectors for cleaner ejection.
- Chrome-plated barrels and chambers.

3

#### BACK-BORED™ VECTOR PRO™ BARREL

A Back-bored™ barrel has a wider-diameter bore, which improves performance in three ways: increased velocity, better penetration/shot grouping, lower recoil.

4

#### INVECTOR-PLUS™ CHOKES

Adjustable Invector-Plus™ chokes have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'a perfect target' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting (Cyl = 15m, ¼ Choke = 20m, ½ Choke = 25m, ¾ Choke = 30 m).

BROWNING

# B525 LIBERTY

## B525 LIBERTY LIGHT 12M

A new and carefully-designed stock will please women, youngsters and hunters who find regular stocks wanting. That's the main characteristic of this 12 magnum shotgun. It has an aluminium action frame decorated with new engravings and possesses a Monte Carlo style stock with an adapted pitch, a pistol grip and two recoil pads supplied in the box. Well balanced and light, its level of technical perfection will give you a feeling of real liberty.

1

### PITCH: TOTAL COMFORT

The 80° pitch limits the contact between the toe of the stock and the shooter's chest for optimum comfort and lower felt recoil.

2

### LENGTH OF RECOIL PADS

The B525 Liberty Light 12 magnum is delivered with three Inflex™ II recoil pads, combined with a grip that is adapted for small hands and a trigger system, both of which are adjustable. It is easy to configure it for perfect ergonomics.

3

### ADVANTAGE OF 4MM-10MM

The advantage is in the tilt of the recoil pad in relation to the axis of the top rib. This advantage has been modified with respect to standard models and will be clearly preferable for ladies without impairing men's comfort when shooting.

4

### DROP

The drop is the height of the back of the stock in relation to the top rib. The drop of the B525 Liberty Light 12 magnum is higher than standard stocks. This feature allows the shooter improved cheek contact on the back of the stock and thus limits recoil impact.

5

### STOCK OF THE B525 LIBERTY LIGHT 12 MAGNUM

This is a new stock developed for ladies, young people and shooters who are not completely satisfied with standard measure stocks.

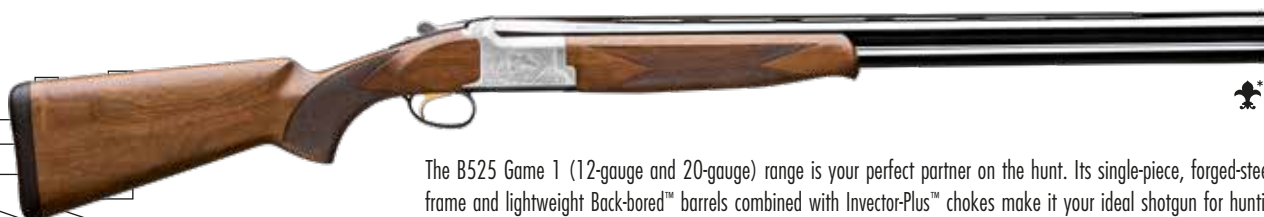

6

### ALUMINIUM ACTION FRAME AND VENTILATED RIBS

The alloy action frame and the ventilated ribs of the B525 Liberty Light 12 magnum produce a lightweight gun. Its 8mm ventilated rib allows it to be used for all kinds of sporting shooting.

# B525 GAME 1

## B525 GAME 1 12M INV+ & 20M INV

The B525 Game 1 (12-gauge and 20-gauge) range is your perfect partner on the hunt. Its single-piece, forged-steel action frame and lightweight Back-bored™ barrels combined with Invector-Plus™ chokes make it your ideal shotgun for hunting. It is available in an automatic safety version.

### BALANCE AND LIGHTNESS

## B525 GAME 1 LIGHT 12M INV+ & 20M INV

These Light models (12-gauge and 20-gauge) include all the features of the B525 Game 1, and enhance its natural qualities with a lower-weight alloy receiver for a lighter gun. Ideal if the perfect swing is your thing!

## B525 GAME 1 MICRO 12M INV+

This model includes all the features of the B525 Game 1 12-gauge and comes with a short stock for smaller shooters.

# ANTICIPATION

# MAXUS 2

LIKE THE OTHER BROWNING BRAND GUNS,  
THE MAXUS RANGE CONTINUES TO DEVELOP

## MAXUS 2 COMPOSITE BLACK 12M 3.5" INV+

The noticeably low recoil and the speed loading and unloading system make this gun a one of a kind with comfort to match its performance. The Maxus 2 Composite Black delivers in any situation.

1

### EASY HANDLING, FAST AIMING AND COMFORTABLE SHOOTING

Fully adjustable stock. The drop and cast of the Maxus 2 can be altered using the six spacers included in the box, as well as the 7mm stock insert and 32mm Inflex II recoil pad. A 12mm insert and 12, 20 and 25mm recoil pads are also available to buy.

2

### FULL COMFORT STOCK AND FULLY BALANCED GUN

The Inflex II is one of the best performing recoil pads on the market, directing the force of the recoil downwards and away from the shooter's cheek. The stock also features a Reactor gel cheek piece for even better face protection, especially when firing heavy cartridges. The perfect balance of the Maxus 2 will give you an even more natural swing!

3

### THE VALUE-ADDED EXTRA YOU ONLY GET FROM BROWNING: SPEEDLOADING

Every second counts when you're hunting small game in open country and wetlands. Speedloading is a Browning proprietary technology that saves you precious time. When you insert the first cartridge into the magazine with the breech open, it is chambered straight away and the bolt springs shut, giving you vital extra seconds to concentrate on what really matters: your quarry.

4

### ERGONOMIC

Everything's in hand. Overmoulded forearm and pistol grips keep the gun securely in your hand even when it's raining. The over-sized bolt handle and trigger guard make the Maxus 2 easy to handle, even with gloves on.

5

### VERSATILE

All-terrain gun. If you're a wildfowler who shoots from long range, or you like to shoot sporting clays with friends, the Maxus 2 delivers outstanding performance in any setting. This new reference in semi-automatic shotguns comes with 5 Invector+ chokes for your every need. The Maxus 2 is also capable of firing a wide selection of cartridges, from 28 grams to the largest loads available in gun stores.

THE MAXUS 2  
COMBINES COMFORT  
AND VIGOUR  
FOR PEAK  
PERFORMANCE

---

# **MAXUS 2**

## **MAXUS 2 COMPOSITE BLACK CF 12M 3" INV+**

**NEW**

This gun has been specially designed for sportshooting. The ventilated rib, tapered from 8mm to 6mm, gives fast targeting. The carbon finish gives it a modern look. Unlike the hunting Maxus, the Maxus Sporting Black Carbon Fiber Inv+ does not have a magazine cut-off.

## **MAXUS 2 CAMO MAX5 12M 3.5" INV+**

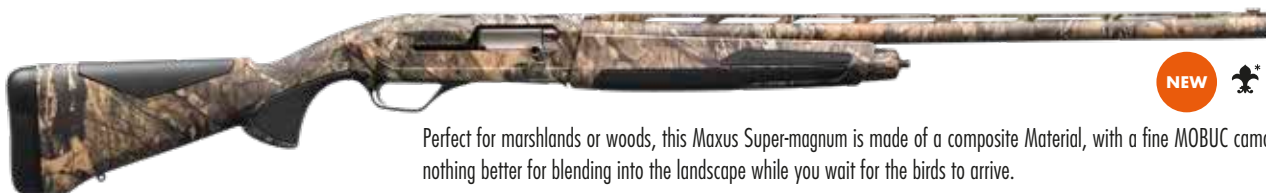

**NEW**

A model designed *par excellence* for waterfowl hunters. The gun is coated with the Max 5 camouflage film, the most effective camouflage for waterfowl. It has a super-magnum chamber so you can shoot 70mm - 89mm steel shot cartridges.

## **MAXUS 2 CAMO MOBUC 12M 3.5" INV+**

**NEW**

Perfect for marshlands or woods, this Maxus Super-magnum is made of a composite Material, with a fine MOBUC camo finish: nothing better for blending into the landscape while you wait for the birds to arrive.

## **THE PERFECT TARGET**

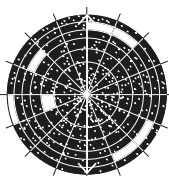

Adjustable Invector-Plus™ chokes have been specially developed for our Back-bored™ barrel system. They have been designed to obtain 'a perfect target' at different shooting distances. Depending on the Browning choke you use, you can adapt your gun perfectly for the distances at which you shoot and the game you are hunting (Cyl = 15m, ¼ Choke = 20m, ½ Choke = 25m, ¾ Choke = 30m).

BROWNING®

THE THRILL

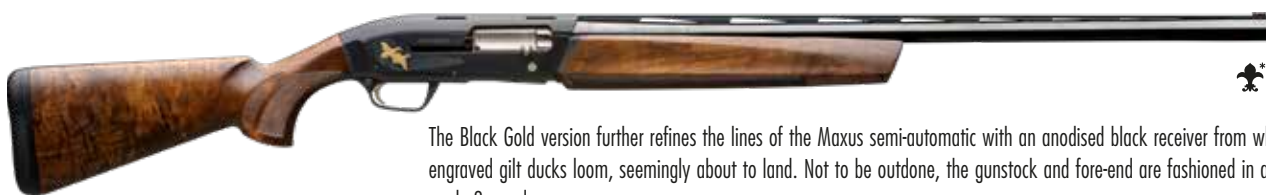

### MAXUS 1 12M INV+

Maxus 1 Inv+ is the entry level semi-automatic gas operated gun by Browning. It features all of the technical characteristics that make Maxus such a success and is sold at an affordable price, which makes it your perfect value hunting shotgun.

### MAXUS BLACK GOLD 12M INV+

The Black Gold version further refines the lines of the Maxus semi-automatic with an anodised black receiver from which two engraved gilt ducks loom, seemingly about to land. Not to be outdone, the gunstock and fore-end are fashioned in attractive grade 3 wood.

### MAXUS ULTIMATE PARTRIDGES 12M INV+

The delicate engraving representing partridge hunting scenes on one side and pheasants on the other gives it a real up-market feel. Its brushed nickel-coated receiver is a little gem. Its stock and fore-end are made from grade 3 oil-rubbed walnut.

## MAXUS ULTIMATE PARTRIDGES, THE BEST YOU CAN GET FOR UNRIVALLED SHOOTING COMFORT

The advanced gas-operated mechanism can fire 24g to 64g loads. Unique innovation: the 'Speed Load Plus' system chambers the first round straight from the magazine without having to run the bolt. Ultra high-performance trigger: the Lightning trigger system is 24% faster than like-for-like rival semi-auto shotguns.

# A5

RELIABLE WITH ANY TYPE OF LOAD,  
IN ANY EXTREMES OF WEATHER AND DIRT

THE KINEMATIC DRIVE™  
SYSTEM OF THE A5 -  
100,000 SHOTS  
GUARANTEED\*

## A5 ULTIMATE PARTRIDGES 12M 3" INV DS

The A5 was developed to be the most reliable, fastest and gentlest inertia-driven semi-automatic shotgun on the market. The new, indefatigable Kinematic Drive™ system is what makes it so unfailingly reliable, while further innovative features such as the Invector DS™ chokes, Inflex™ II recoil pad and Speed Load Plus load/unload system add to the A5's technological punch.

1

### INFLEX™ II RECOIL PAD

This ultra flexible recoil pad provides the best recoil absorption possible on a shotgun. The exclusive design and Material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun. Two other pads, 20mm or 25mm thick (available as an option), make it easy to adjust the length of your stock.

2

### HUMPBACK

Made from lightweight, aeronautic quality aluminium alloy, the A5's receiver is sturdy and its characteristic shape is much more than just a nostalgic return to the past. The receiver's familiar humpback shape fits perfectly with the rib for lengthening your line of sight, which helps you to aim naturally with faster targeting.

3

### SPEED LOADING AND UNLOADING SYSTEM

Rapid loading systems have been used on Browning semi-automatic shotguns for decades. Our patented Speed Load Plus system chambers the first round straight from the magazine, and unloads quickly without having to run the bolt to chamber each shell.

4

### KINEMATIC DRIVE™ SYSTEM

The system accumulates recoil energy and converts it into a mechanical movement for actuating moving parts. It's the simplicity of its design that makes the Kinematic Drive™ system work so efficiently, smoothly and reliably with any type of load and in any type of extreme weather, temperature, damp and dirt.

5

### BACK-BORED™ VECTOR PRO™ BARREL

The Back-bored™ barrel has an increased internal bore diameter and longer forcing cone. One barrel, two features, three benefits: greater velocity and better penetration / shot grouping and reduced recoil.

6

### INVECTOR DS™ CHOKES

The Invector DS™ chokes provide unrivalled performance by providing an optimal length of 80mm, an exclusive internal shape and a patented gas seal segment.

## SOME THINGS NEVER GO OUT OF FASHION

The A5, the direct heir of the legendary Auto-5, is one. Other things fall out of favour and then become flavour of the day once again. The 16-gauge, for example, which walks the line between the powerful 12-gauge and the gentle 20-gauge. The A5 Classic Woodcock 16-gauge is more than a gun steeped in nostalgia. Its unique technical features make this semi-automatic a shotgun for the future - your future. Its super light weight will hone your swiftness of hand and give you a swing that is as natural as it is effective.

### A5 CLASSIC WOODCOCK 16 INV DS

NEW

The A5 Classic Woodcock 16 Inv DS is weighted close to a 20-gauge, for greater ease of handling. But the barrel can handle heavier loads than a 20-gauge, giving it near 12-gauge performance. The A5 Classic Woodcock 16 Inv DS also has a surprisingly gentle recoil, is light, available with a 26in or 28in barrel, and comes with two Invector DS™ chokes.

### A5 ONE 12M 3" INV DS

The A5 One Inv DS is the starter version of the A5 family, with an understated receiver that is enhanced by the walnut stock and fore-end. It features all the technical specifications behind the success of the A5. It is available in 12 and 16-gauge.

### A5 GRAND PASSAGE MAX5 12M 3.5" INV DS

Here is the terror of all wildfowl and pest birds. The A5, available in 12/89 (3½in), includes Invector DS™ chokes and now comes with a hi-tech, ceramic-based Cerakote finish on the barrel, receiver and breech handle, designed to protect against natural wear and corrosion. Its Camo Max 5 composite gunstock and fore-end continue to make it the duck and pigeon shooter's ideal companion.
