STALKING

The Browning Hunter is passionate about the world of stalking and hide hunting, whether it's mouflon in the mountains, yearling deer on a summer shoot, or stags in Scotland.

Alone in his treestand or in the company of a guide, he is careful of the environment and is smart about what he harvests. He has a keen eye for Browning products that have proven their worth in the field. He looks for the gun that sets the standard, that reassures, like an X-Bolt Pro Carbon with a Kite Optics scope. >> SEE PAGE 4

X-BOLT PRO CARBON

He cares about quality, likes being one of the connoisseurs who know about the right product, who choose equipment that is reliable and efficient. The honours, salvation and recognition of the hunter are important in his eyes, and is expressed in the joy of a fine trophy.

X-BOLT PRO

THE BENCHMARK FOR BOLT ACTION RIFLES

ULTRA LIGHT, ULTRA RIGID, ULTRA PRECISE

Your high standards are your greatest attribute. You won't accept failure. You need a gun that reflects who you are: efficient, accurate and focused on results. The X-Bolt Pro Carbon is designed for you. It handles with featherweight ease so that you can take your active hunting experience to a new level. The rigidity of the stock gives you even greater accuracy. The X-Bolt Carbon Pro is now available in 300 WM, 270 WSM and 7RM calibres.

X-BOLT PRO CARBON

1

CARBON-FIBRE STOCK

The X-Bolt Pro Carbon is:

- Ultra-light and sees its weight reduced by 200 grams.
- Ultra-rigid for uniform recoil distribution.
- Ultra-solid, compression-moulded carbon-fibre construction with a high-density foam core.

2

FLUTED BOLT AND BOLT HANDLE

The externally fluted bolt and bolt handle provide smoother action for a rapid shot.

3

CERAKOTE "TUNGSTEN" FINISH

The X-Bolt Pro is Cerakote finished on all its metal components (including the optics) and on the magazine floor plate. The result is better resistance against any type of friction, abrasion and corrosion.

4

INTEGRATED MOUNTING SYSTEM

The integrated scope-mounting system has four screws per fixing point. Therefore it is more stable and provides greater accuracy.

5

DOUBLE BEDDING

A free-floating barrel is essential for utmost accuracy. The X-Bolt SF's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel/breech block assembly at two points with respect to the forearm, at the front and at the rear.

6

HIGH-PRECISION BARREL

The fluted barrel on the X-Bolt Pro ensures it stays cool and reduces weight. The barrel lapping process polishes away any traces of machining work, improving accuracy and reducing fouling.

BROWNING®

WATCH OUT

X-BOLT PRO

X-BOLT PRO LONG RANGE GRS

The X-Bolt Pro GRS is a perfect blend of accuracy, design and ergonomics, whose intricately crafted, adjustable length and pitch laminated-wood stock and even greater firing comfort give you an aggressive style. GRS from Norway is the master customer riflestock manufacturer.

1

GRS STOCK

Ergonomic, laminated stock with adjustable-length recoil pad.

2

ADJUSTABLE 2D COMB

Adjustable width comb (drop).

3

ERGONOMIC GRIP

For optimum handling during precision shooting.

X-BOLT PRO HUNTER GR. 5

The X-Bolt Pro Grade 5 boasts a series of technical features to rival 'custom-made' rifles: fluted bolt body and handle for a killer look. The barrel is hand-lapped to "custom" quality levels. Finally, all the metal components are finished in a Tungsten Cerakote coat for guaranteed friction, abrasion and corrosion resistance.

X-BOLT

MISSING IS NO LONGER AN OPTION

X-BOLT COMPO BLACK

Scope not supplied

NEW

The X-Bolt Compo gets a facelift with this Black version. The new bolt handle is a three-piece design with a hexagonal knob. But the Compo Black still retains all the features that have made the X-Bolt a success: the incredibly supple trigger, the deadly accuracy, and the unrivalled shooting comfort you get from the Inflex II recoil pad.

1

INFLEX™ ANTI-RECOIL BUTT-PLATE

This extra-soft pad offers the best recoil absorption possible on a rifle. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the gunstock slightly away from your face in order to reduce the recoil and upward motion of the gun.

2

THE X-BOLT RANGE FEATURES A SHORT, CRISP AND DIRECT TRIGGER PULL

Firing action with a triple guarantee:

- Zero take-up.
- Minimum break.
- Limited overtravel.

3

BOLT-UNLOCKING BUTTON

The bolt latch button works with the safety and can be used to safely remove the ammunition from the chamber.

4

ROTATING MAGAZINE

Made in light ultra-resistant polymer, it gives exclusive protection to bullet noses.

5

INTEGRATED MOUNTING SYSTEM

The integrated scope-mounting system has four screws per fixing point. Therefore it is more stable and provides higher accuracy.

6

UTMOST ACCURACY

A free-floating barrel is essential for utmost accuracy. The X-Bolt's free-floating barrel is perfect due to double bedding i.e. positioning of the barrel/breech block assembly at two points with respect to the forearm, at the front and at the rear.

X-BOLT COMPO BROWN

This rifle in a brown finish includes an adjustable comb for an adaptable gun fit. It comes with an oversized two-piece bolt knob. The fluted barrel is also threaded (M14x1) ready for mounting a sound moderator or muzzle brake.

X-BOLT HUNTER II MONTE CARLO THR

This sight-free version of the X-Bolt SF hunter II Monte Carlo Threaded has an M14x1 threaded barrel. It is available in a left-hand version and in 243 Win, 30-06 and 308 Win calibres. This model featuring a Monte Carlo buttstock designed for use with scopes.

X-BOLT HUNTER II MONTE CARLO

This X-Bolt SF Hunter II Monte Carlo is characterised by a sighting system of a battue rib and a fibre optic front sight; a rear sight is also supplied. This model featuring a Monte Carlo buttstock that is perfect for use with scopes. Supplied with two handles, and also includes a smooth-working jewelled bolt for better ergonomics.

**X-BOLT LEFT-HAND:
YOUR IDEAL ALLY
ON THE STALK.**

X-BOLT

X-BOLT ECLIPSE HUNTER BROWN

Available in a left-handed version

The styling isn't the only distinguishing feature on the X-Bolt SF Hunter Eclipse Threaded: the laminated wood stock is graced with a thumbhole that provides a natural fit to guarantee a firm but flexible grip for easier movement. Equipped for fitting a scope, and with the Super Feather Trigger system, the X-Bolt Hunter Eclipse rifle has a threaded barrel (M14x1).

X-BOLT MAX VARMINT

The standout feature of the Max Varmint version of the highly popular X-Bolt, which comes in a choice of five calibres, is its distinctive 24-inch semi-weight barrel complete with threaded end (M18x1). This gun has a modern "Max" type stock and comes with a fore-end Picatinny accessory rail.

1

MAX TYPE STOCK

Composite "Max" stock with adjustable comb, ergonomic grip and 20 mm Inflex II recoil pad.

2

OVERSIZED BOLT KNOB

Oversized "tear drop" bolt knob for easy reloading.

THE MUZZLE BRAKES

T1: reduces recoil by up to 30%.

T2: reduces recoil by 30 to 50% and muzzle rise by up to 50%. See my calibre style guide. Specially developed for 308, 30-06, 300 WM calibres and smaller calibres (the wearing of hearing protection is strongly recommended >> SEE PAGE 35).

**T-BOLT, X-BOLT,
A-BOLT: THE ANSWER
TO YOUR NEEDS
ON ANY TYPE
OF HUNT.**

A-BOLT 3

A LEGEND IN THE MAKING

A-BOLT 3 HUNTER LAMINATED BROWN

This model of the A-Bolt 3 rifle shares the same special features as the A-Bolt 3 Hunter and includes a laminated stock for a modern style that doesn't compromise on efficiency.

1

INFLEX™ II ANTI-RECOIL BUTT-PLATE

This extra-soft pad offers the best recoil absorption possible on a rifle. The exclusive design and material used promote a downward deviation of the direction of the recoil forces, thus pulling the stock slightly away from your face in order to reduce the recoil and upward motion of the gun.

2

UNLOCKING BUTTON FOR THE BOLT

The unlocking button for the bolt ensures optimum security and is ideally placed on the back of the pistol grip. Can be opened in the safety 'on' position.

3

NEW PERFECT TRIGGER

For firing with absolute accuracy, there is no alternative to the A-Bolt 3 trigger action, sharper, short and ultra-direct. The trigger delivers a crisp and direct firing action for a thrilling shooting experience with an accurate shot.

4

BOLT AND HOUSING

The A-Bolt 3 features a three pin bolt that offers extreme precision. The 60° opening of the bolt allows for a rapid and efficient cycle.

5

DROP BOX MAGAZINE

The essential accessory, the A-Bolt 3 is fitted with a state of the art drop box magazine. Its synthetic and steel construction can withstand any conditions.

3

A-BOLT

A-BOLT 3 HUNTER BATTUE

Originally intended for hunting big game from a hide, the A-Bolt 3 now comes with a top rib suitable for battue shoots. This innovation will certainly find the approval of bolt-action rifle enthusiasts, especially since the rifle, available in 30-06 Spr or 308 Win calibre, is accessible at a very, very reasonable price!

A-BOLT 3 COMPO BATTUE

NEW

First-class barrel, fast and safe locking/unlocking system, drop box magazine and Inflex™ Technology anti-recoil pad — the A-Bolt 3 is a hunter's dream. It comes with battue sights and combines pinpoint accuracy and a rock-solid build with excellent value for money.

A LEGEND IN THE MAKING, IS BORN.

This new carbine allies a modern production system with the trusted Browning quality in order to produce a high-performance carbine at a very interesting price. The A-Bolt 3 gives you the precision and performance you want in a hunting rifle and its cost-effective budget is a real delight.

RANGE A-BOLT 3

T-BOLT

FEARSOMELY ACCURATE!

The T-Bolt rifle from Browning is the reference in 22 Long Rifle calibre recreational shooting. The T-Bolt is highly popular with tens of thousands of units sold, and features a reloading system unlike any other.

T-BOLT SPORTER

This rifle is a vintage, the reissue of a best seller, a legend. Available in .22LR, .22 Magnum, and 17HMR calibres, it is aesthetically close to its ancestor, the first T-Bolt, but the mechanics have been completely modernised. It is characterised by its straight-pull bolt that loads cartridges from an exclusive 10-round rotating magazine.

1

STOCK

The synthetic Monte Carlo stock is made from polymer with a pistol grip.

2

BREECH AND BOLT

The breech on the T-Bolt is made from polished grey steel. The bolt is a straight-pull that uses a disc system to lock into the casing.

3

TWO-POSITION SAFETY

The ambidextrous safety is positioned at the rear of the breech casing. A red dot indicates that the gun is armed.

4

FIRING SYSTEMS

The smooth, wide gold-tone trigger gives you a sharp, crisp and direct break with zero travel. The pull weight is adjustable.

5

DETACHABLE 10-ROUND MAGAZINE

The detachable Helix magazine is ergonomic and fast. It uses a rotary system and holds ten 22 LR rounds.

T-BOLT SPORTER COMPO

Scope not supplied

Available in a left-handed version

This version is equipped with a gunstock made of highly-resistant ergonomic composite, allowing intense use in all conditions. Another very useful characteristic is an additional magazine integrated in the gunstock and, more particularly, in the pad.

T-BOLT TARGET VARMINT LAMINATED

Scope not supplied

NEW

This rifle is available with a heavy, threaded barrel and an adjustable, grey laminated Monte Carlo stock. The barrel also includes scope-mounting bases.

RANGE T-BOLT

THE UNDOUBTED ACCURACY OF THE T-BOLT RIFLES MAKES THEM THE
REFERENCE IN 22 LONG RIFLE CALIBRE RECREATIONAL SHOOTING.

MARAL

THE MOST EFFECTIVE STRAIGHT-PULL ACTION RIFLE:
FASTER, SAFER, MORE ERGONOMIC.

MARAL PLATINUM

NEW

1

SAFETY GUARANTEED

- Hand cocking system.
- Breech contained inside its casing: no inconvenience when reloading.
- Seven-lug bolt: a bolt renowned for its sturdiness, which guarantees exceptional safety and accuracy.

2

TRIGGER SYSTEM IS CRISPER, SHORTER AND INCREDIBLY DIRECT

When you want absolute precision the trigger system is crisper, shorter and incredibly direct. The trigger system offers you that rewarding sense of breaking a glass bar as you squeeze into a shot.

3

THE LOWEST MOUNTED SIGHT ON THE MARKET

- Low and forward mounted for a fast and instinctive aim.
- Perfect alignment without a comb.

4

OPTIMUM ERGONOMICS

- Handles naturally.
- Easily adjustable red-dot brightness.
- Integrates elegantly with the gun.

5

QUICK RELOADING SYSTEM

The servo bolt return system combines maximum safety, speed and efficiency. Thanks to the time gained in the reloading phase, shooters can concentrate on their shooting.

MARAL BIG GAME

The Maral Big Game includes side plates engraved with hunting scenes. With the wide range of optional extras, each Maral Big Game rifle can be customised to your taste.

MARAL FLUTED

This model comes with a threaded barrel for fitting a silencer or muzzle brake.

MARAL COMPO BROWN

Scope not supplied

Available in a left-handed version

The stock, grip and fore-end combine in a shade of brown to offset the black barrel and receiver, for a discreet look with a distinctive effect. This version of the Maral comes with an M14x1 threaded barrel, an adjustable comb, and a muzzle brake (T1) for less recoil and muzzle flip. It is available in 30-06, 308WIN and 300WM calibres, and is scope-ready with Nomad Hybrid base rails.

MARAL COMPO NORDIC

Scope not supplied

The Maral Composite Nordic gives prominence to black for its gunstock and fore-end, giving a new look to this rifle which has quickly taken the lion's share of its category. Close to its brown composite cousin, it is equipped with a threaded barrel (M14x1) and a Nomad Hybrid mounting rail for the telescopic sight.

MARAL COMPO NORDIC REFLEX

Scope not supplied

NEW

The exponential sales of the Maral prove that once you give it a go, you can't say no. This version of the Maral is the Nordic Reflex composite. Nordic refers to the black colour scheme with grey grips, while the term Reflex indicates that it is fitted with a K1 red dot sight from Kite Optics mounted as low as possible to the barrel. Positioning the sight up to 6 mm lower than it would be on the receiver adds that little extra boost to the Maral's natural speed, ergonomics and versatility.

A CRISP RED DOT YOU CAN RELY ON

The K1 reflex sight from Kite is made from top grade components using cutting-edge technology that combine with the single-piece aluminium body to give you an optic that is incredibly water tight, solid and rugged. Fast, sturdy and durable. Experience the ultra-effective aim of the Kite K1.

AMMUNITION

EXCEPTIONAL GUNS DESERVE EQUALLY HIGH-LEVEL AMMUNITION.

Browning is a benchmark in the world of guns. For more than a century, we have been developing extraordinary rifles that deliver unparalleled results. We have now decided to use all the know-how of our best engineers to develop a range of ammunition.

BXS - MONOLITHIC LEAD-FREE

The Browning BXS is ideal for big game. Its monolithic copper construction provides near-100% mass retention. This means all its energy is saved to penetrate deep into even the thickest hides and ensure overwhelmingly lethal knockdown power. The polymer tip expands fast for maximum impact shock. The nickel-coated casings are corrosion resistant and make loading easier, promising a fast shot backed by guaranteed devastating knockdown power. And because Browning's BXS is lead-free, it can be fired in hunting zones that have lead restrictions in place.

BXC - CONTROLLED EXPANSION

The new Browning BXC bullet is designed for heavy game where devastating knock down power and deep penetration are required. The bonded bullet design with a residual weight of almost 100% and the Terminal Tip allows for deep penetration through tough hide and bones. The brass tip, heavy bullet weight and boat-tail are integral components to delivering precision accuracy, maximum downrange velocity and long-range, on-target performance.

BXR - RAPID EXPANSION

BXR Rapid Expansion Matrix Tip is designed specifically for use on medium game such as roe deer or wild boar. The proprietary matrix tip design allows for high downrange velocity and energy retention while also initiating rapid positive expansion. The jacket and tip combination yields precision accuracy, rapid energy transfer and generates massive knockdown power.
