

# B525

The most reliable and best performing line

When you buy a Browning B525, you are not just buying the heritage and experience of more than 80 years of excellence; you are also buying a shotgun that represents the 5th generation of the legendary B25. The Browning B525 is a more than worthy descendant of this exceptional shotgun and, much like the B25, the Browning B525 has become the benchmark for the industry since its first appearance in 2003.

B525 Hunter Light Classic 12M

- 1 Action frame**  
Machined from a single forged part for providing exceptional rigidity and sturdiness.
- 2 Wide flat bolt**  
The large bolt surface gives the B525 gun a longer life.
- 3 Recoil surfaces**  
The over-sized recoil surfaces give the gun unparalleled life.
- 4 Hinge pin**  
Because of its size, the pin possesses very large contact surfaces – a guarantee of reliability and long life.
- 5 Impact wheel ejectors**  
Firm, powerful and regular ejection.
- 6 Canon Back-bored**  
The 3 benefits of the Back-bored barrel are:
  - Increase in speed and penetration
  - Improvement of patterning
  - Less recoil

BACK · BORED

Hand fitted to create the best there is

The gun moves from one gunsmith to the next to be entirely made by hand, thanks to the expertise acquired over many years by each of the gunsmiths. This is the only shotgun on the market at this price level that is hand fitted during production to such a high

performance level, making each shotgun truly unique. Fitting important parts (barrel, action frame, fore-cud and iron) is done by hand using traditional methods (such as red ochre) so as to make the Browning B525 the reference in shotguns. The attention paid to detail when manufacturing and fitting every Browning B525 is unique, just like the "Browning feeling" when the gun locks on closing.
