

REACTAR G2

REACTAR G2

LESS RECOIL

The Reactar™ G2 anti-recoil patch uses the new flexible Impact Gel™ material, which absorbs recoil better than any other product on the market.

The Reactar™ G2 patch is placed inside jackets, vests or shirts fitted with a special Reactar™ G2 pocket.

Only 8mm thick, it does not change your length of arming or point of aim. Flexible it adapts itself to your morphology without the slightest difficulty.
